Centre of Vocational Excellence in Welding and Non-Destructive Testing

Project n° 101143944

COVE-WENDT aims to bring together the skills of teachers and trainers from existing VET centres, research institutes and universities, industrial companies from welding sector and other stakeholders from Quadruple Helix, to create an international network of **CoVEs** to support the European-wide skills ecosystems.

KEY OBJECTIVES

COLLABORATION & INNOVATION

Strengthening partnerships within the Quadruple Helix model to drive local and regional innovation in the welding sector.

INTERNATIONAL IT PLATFORM

Launching a collaborative network for Centres of Vocational Excellence (CoVEs) to share best practices and promote VET excellence.

EDUCATIONAL MATERIALS & TRAINING

Developing cutting-edge educational resources and training programs for green and digital transitions in welding.

VET TRAINER COMPETENCE

Enhancing key competencies of VET trainers to foster innovation and tackle societal challenges.

WHAT COVE-WENDT OFFERS

Policy Materials

2 curricula and guidelines for learner-centred courses addressing societal challenges.

IT Platform

A transnational platform for sharing best practices, hosting webinars, meetings, and courses.

Job Board

Connecting skilled professionals with job opportunities.

Living Labs Network

Testing innovative ideas, products, and technologies.

Events & Training

24 digital & green training events, 12 job fairs, 2 trainer training sessions, 2 campuses, 2 international skill competitions, 16 dissemination events.

Infrastructure Development

Enhancing the infrastructure of 4 CoVEs.

TARGET GROUPS

As the demand for digital education and green industry transitions surges, training centres must evolve to keep pace. However, there is a shortage of lecturers experienced in e-learning, and many are not yet prepared for this new approach.

The **COVE-WENDT** project addresses this gap by targeting:

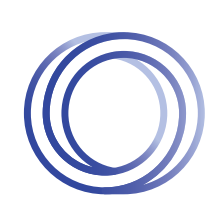

WELDING AND ALLIED PROCESS SPECIALISTS

Trainers and teachers from academia and R&D institutes.

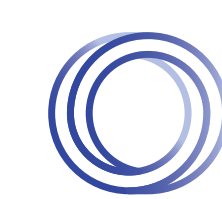

CAREER DEVELOPERS

Engineers and other professionals aiming to advance their careers in welding or non-destructive testing.

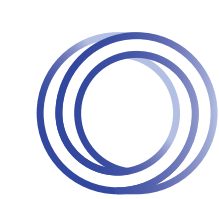

CAREER CHANGES

Young graduates and individuals looking to retrain as welders or NDT operators.

SME'S IN WELDING

Providing opportunities for companies to train their employees.

APPROVED TRAINING BODIES (ATB'S)

Expanding their expertise and certified training offerings.

IMPACT

The **COVE-WENDT** project is set to revolutionize the welding and allied processes sector by:

INNOVATIVE
TOOLS AND
FRAMEWORKS

SKILL
